

Reiner Philippi

Reiner Philippi completed an Apprenticeship in Industrial Business Management in 1975.

As part of his professional development, Philippi attained an Advanced Technical College Diploma in the field of Business Administration in 1994.

His professional education includes the successful completion of various specialized seminars including: Quality Management at TUEV Academy Kaiserslautern; Chamber of Commerce Certification; Vocational and Occupational Education Skills; and various internal and external management and leadership training courses.

His professional career with the U.S. Army began in July, 1975 as an employee of the Production Control Branch at the Motorpool of the Kaiserslautern Army Depot (KAD). In 1978, he was reassigned to the Reserve Storage Activity, Kaiserslautern, and progressively assigned higher levels of responsibility in the areas of Supply and Production Control. In 1988, he was selected as Management Assistant, Production Control Branch, Care and Preservation Division and promoted to the Chief, Production Control, in 1989.

He was reassigned into the Material Operations (MATO) Division of the Kaiserslautern Industrial Center in January 2001 and was appointed Chief, Production Control and Supply Division of the Maintenance Activity Kaiserslautern thereafter. On February 1, 2003, he was reassigned as Deputy Director, Supply Activity Europe, and was appointed as Director, SAE, on February 15, 2013.

Philippi's awards and decorations include: the Army Achievement Medal for Civilian Service; Supply and Maintenance Excellence Award; Commendations for Desert Shield, Desert Storm & Operation Joint Endeavour support; and numerous other performance awards.
