CG's Millrinder Message #12: Antiterrorism And Immunizations Awareness Month

Team 21, terrorism is an enduring, persistent, and worldwide threat to all Army Soldiers, Families, and communities. As the frontline in our Nation's defense against terrorists both at home and abroad, we all must understand the threat, know how to detect terrorist activities, and help ensure our formations, and Families know their roles and responsibilities in helping detect and report suspicious activities.

The Army defines antiterrorism as the "defensive element of combating terrorism." Antiterrorism integrates risk management, planning, training, education, and awareness through plans, programs, and activities in order to protect the Army community. I want to remind you that each member of Team 21 has an important role in antiterrorism and preventing terrorist activity both at work and at home.

Help your spouse and children learn how they can be more vigilant and self-aware, in order to serve as antiterrorism "sensors" for our community. Visit Army Europe's *iWatch* website (<http://www.eur.army.mil/eureport/iwatch.html>) to view antiterrorism resources and reporting procedures. Follow the 21st TSC social media pages this month as we talk about antiterrorism, OPSEC, and strategies that you can employ daily to help keep the 21st TSC community safe from terrorist activity. Remember, if you see something, say something—we all play a role in our nation's safety.

Summer is in full swing, and I hope you are having fun spending time with Family and friends this season. As the warm days turn to fall, stay safe, be vigilant, and note that August 2014 also marks the fifth annual DoD participation in The Center for Disease Control National Immunization Awareness month. Go to www.vaccines.mil/IAM website to learn more facts to protect yourself, military beneficiaries, and employees. God bless you, Team 21 Families, our Army and the Nation as we support and defend!

FIRST IN SUPPORT-READY STRONG!

Sincerely,

Rodney J. Rhoades
