

AFOD Preferential Routes

March 30

2017

Disclaimer: The AFOD provides preferred routing as a service to our customers. It remains the pilot's responsibility to verify the routes with their mission requirements, aircraft capabilities, etc. The AFOD service of preferred routes and assistance in developing other routes does NOT negate basic Pilot in Command responsibilities. Although great care has been taken in the compilation and preparation of the content of this document to ensure accuracy AFOD cannot accept responsibility for any errors or omissions. The contents are provided without warranties of any kind. All routes are validated for the AIRAC cycle starting at the date indicated above. Although it is likely that the routing will be usable beyond the current AIRAC cycle, there are some rare instances where route availability may change earlier. All routes or route segments outside of IFPS airspace are to the best of our knowledge and based on the information available to us and/or provided by the respective countries.

Legend

DEP ICAO Location Indicator sorted A > Z. Incomplete indicators are used for traffic orientations.

DEST ICAO Location Indicator sorted A > Z. Incomplete indicators are used for traffic orientations.

Level Indicates the level or level range where the route can be filed.

Via Indicates countries the route is leading through using the first two letters of the ICAO FIR designator e.g. LO for Austria etc.! Note: listing might be non exhaustive!

Route PIROT/NOXXXF180 indicates a mandatory level change. Replace NOXXX with the appropriate speed!

Remarks Additional information relevant to the route.

Notes

Note 1: If an IFR route is not listed on our Preferential Route document, please go to <http://www.eur.army.mil/afod/planning.htm> to request it. There you'll also find more preferential routes for selected countries.

Note 2: If you require a certain route regularly for the foreseeable future please let us know and we will include it in the next edition and keep it in there for the required time frame.
